

First Newsletter to our Members

January 11th, 2010

Greetings from the Sisterhood of the Planetary Water Rites

There is so much that we need to give to all of you in order to create this wonderful foundation to be able to be a part of the solution!

We hope to have our website up and running very soon.

January 15th we ask for you to sit in quiet prayer for the Waters of Lake Chad in Africa....the lake is the main source for millions of people, they all are needing to be relocated because of this vast lost of their water supply....the lake is drying up!

Each month we will have Words of Wisdom channeled from the Grandmothers

This week's words of Wisdom from the Grandmothers.....

**“...Wherever you are! Flood the Earth's Waters with Love and Healing
Compassion! AHO....Be Blessed!”**

Applications will be available to our members to assist us to find the positions where you can be the most help to our Sisterhood. We will have different sections of information available to show our purpose with ways and guidelines for personal and community water blessings. We will have an archive page for past newsletters ~ Information on How to Create Circles and Full Moon Grandmother Ceremonies: Details of ceremonies will be given with reference to the teachings of Grandmother Twylah Nitsch, Jaime Sams and the Original 13 Clan Mothers. We are creating a Links page for other organizations supporting the World Prayers for Water Day..**If you have an organization that needs to be added please let us know.**

There will be a Young Spirits Lodge for education and understanding of children's ceremonies. One such site for our Young Spirits Lodge is www.epa.gov/beaches/kids/index.html please check it out it is wonderful

We have been acknowledged by Dr. Emoto for our efforts put forward with this Sisterhood and our dedication to World Prayers for Water Day, May 18th, 2010:

Dear Tonya, Yes, you can introduce our website in your website. For some reason our website, www.hado.net is not available to view now but it should be back soon. We also have www.emotoproject.org that you can mention. Your intention sounds beautiful. We hope we exchange information from now on.

With love and thanks,
Hiro Emoto
Office Masaru Emoto, LLC

We need to know where our circles for the Water Blessing Day are going to be so that we can create a World Map designating the areas of energy to be generated during the World Prayer Day for Water on May, 18th, 2010.

This date will be here upon us before we know it! Time is passing us like a whirlwind,...So please let us know how you will be able to help coordinate this first of many World Prayer day for Water.

In order for us to be efficient in our duties to create this Sisterhood please contact one of us by e-mail as soon as possible.

Be Blessed, Rain on the Earth, Tonya Whitedeer, Anira
