

SISTERHOOD OF THE PLANETARY WATER RITES

April 2010 Newsletter

Peggy Sebera - Swirls

Greetings Dear Water Sisters:

This month has been a very busy time for many of us. Ceremonies are coming into focus as the needs arise. Let us always keep the thoughts of Gratitude within our hearts in these days of Spring as we are planting seeds of intention in whatever and wherever we go. Much Love, Grandmother T. Whitedeer

We have [A Message from Archangel Michael: Channeled by Shanta Gabriel](#)

"The call of reunification is beginning for many of you, whereby your refined Soul Song is reaching various members of your God Self. As you refine your vibrational patterns and your Energetic Signature reaches a certain level of harmony, your Soul Song will begin to reverberate out into and through the fourth, into the fifth and for some of you, possibly even into the sixth dimensions, and very gradually into the auric fields of some of the Soul Fragments of your Higher Self. Slowly, as these blessed facets of your Self become aware of you, they will begin the process of moving into alignment with you. Those whose resonance is lower than yours will fall into line below you, and those who are on the Path ahead of you will slowly move into the column of Light above you. You will also be moving laterally, as well as higher, into the refined realms as all of the fragments of your I AM Presence gradually begin the process of moving closer and closer to your central column of Divine Light. "

Here is a breathing exercise given to me from the Grandmothers about two weeks ago...

Starting first taking in a deep breath so that your belly is filled to capacity..

While speaking and breathing out in unison (this takes practice) Say the word I

While speaking and breathing in say the word AM

While speaking and breathing out say the word NOW

Speaking and breathing in at the same time say the word PAST...

Do this for as many times as you need... The more you do this breathing exercise, the more you

become totally at one and balance with your inner holy trinity of self body, mind, and spirit.

AHO... This is my give-away to each and every one of you. Grandmother Whitedeer

Dr. Emoto invites you to participate in the April 24, 2010

"Sacred Ceremonial Blessing for Salish Sea and Water Everywhere"

The ceremony will take place with Dr. Emoto on the Lummi Indian Nation Reservation near Bellingham, with simultaneous gatherings beside Salish Sea and rivers of Salish Sea, and beside waters planet-wide.

A message to you from Dr. Emoto:

There are many earthquakes happening all over the world lately and I am worried about this as I am living in Japan, one of the countries where earthquakes often hit. As far as I have researched on the history of Puget Sound, there was an earthquake recorded at magnitude 9 around that area about 300 years ago and the Tsunami that happened at that time came all the way to Japan.

When I come to think about this, we can say that water brings information from very far. So when I visit there, let's pray together for stabilization of the world. All the water around us will bring our thoughts to any place in the world. Let's imagine that our thoughts will reach to water in the layer of the earth and lead this planet in the direction of stabilization, then waters of Puget Sound which have been polluted lately will be happy about that.

I look forward to seeing you all there.

Masaru Emoto

Please read the following for the ceremony schedule and information on how you can participate at the site or from afar.

Sacred Ceremonial Blessing for Salish Sea and Water Everywhere

Time:

11:00 AM to Noon on Saturday, April 24 - PDT time Seattle , WA USA

Place:

Lummi Indian Nation Reservation near Bellingham, WA USA or by a Salish Sea waterway or by water anywhere.

Content:

We dedicate our sincere Prayer of Love and Gratitude to the water of Salish Sea and its rivers, and the waters of the world.

Sponsor:

Sacred Ceremonials for Salish Sea

How to participate in the ceremony:

To attend in person: Come to the Lummi Indian Nation Reservation near Bellingham or gather beside Salish Sea or a Salish Sea river or by water near your home anywhere.

On April 24 please arrive at the ceremony site no later than 10:30 AM to prepare for the ceremony. The ceremony will commence at 11:00 AM.

Participation at home:

Print the photograph of the Salish Sea that is shown below.

Prepare a glass of clean water and put it on the photograph of Salish Sea.

If you could not print the photograph, then you can just put the glass of water in front of the computer screen that is showing the photograph.
Please pray for the water in the glass using the following prayer of Apology (for Humanity's contribution to pollution), Love, Gratitude and Respect.

Water, We Are Sorry.
Water, We Love You.
Water, We Thank You.
Water, We Respect You.

Please intend that the water in the glass is completely filled with the vibrations of Apology, Love, Gratitude and Respect. You can hold both of your hands toward the glass, and visualize that the vibrations emitting from your heart will be projected into the water of the glass through your hands. Please see that each water molecule in the glass is brilliantly shining like a tiny sun.
(You can close your eyes during this process, if it is more comfortable for you during the visualization and meditation.)

Next, please intend that the vibrations of your prayer of Love, Gratitude, and Respect in the glass of water will transmit into all the water of Salish Sea through the photograph of Salish Sea. As all water is connected through collective consciousness, your prayer dedicated to the glass of water will naturally expand into the water of Salish Sea.

Following the prayer to Salish Sea, please intend that the vibrations, which now fill the water of Salish Sea, will spread to the waters all over the world. Visualize that all the water molecules on Earth are beautifully emitting golden and silver light.

Visualize Planet Earth in front of you, surrounded by a glowing gold and silver light

Please intend that the vibrations and frequencies of the water of Salish Sea and the waters of the world are being raised during the full hour from 11:00 AM to Noon on Saturday, April 24. You can also add your own prayer to the water, meditation, chanting, music, songs, dancing, and so on intending the same purpose.

Local Time of Various Places:

Hawaii:	8 am to 9 am on	Saturday, April 24
Los Angeles:	11 am to noon on	Saturday, April 24
New York:	2 pm to 3 pm on	Saturday, April 24
Greenwich Mean Time:	6 pm to 7 pm on	Saturday, April 24
London:	7 pm to 8 pm on	Saturday, April 24
Auckland:	6 am to 7 am on	Sunday, April 25
Tokyo:	3 am to 4 am on	Sunday, April 25
Sydney:	4 am to 5 am on	Sunday, April 25

Please focus your awareness with the thousands of people praying beside Salish Sea and its rivers, and around the world simultaneously with you.

Through the water, we will be connected as One.

Also, before and after the Ceremony, the staff of my HADO INSTITUTE, in Tokyo, will photograph the water crystals of four rivers - the Nooksack, Duwamish, Nisqually and Columbia Rivers. We will post photographs and images from the experiment onto our web site.

Please forward this message to your circle of friends and family, and let us create powerful healing and change for all the precious water on the planet.

Thank you for your cooperation.

I look forward to connecting with you in prayer and intention.

With Love and Gratitude,

Dr. Masaru Emoto

Important Message About Ceremonies from Golden Eagle

"There have been many questions asked regarding individual efforts. Once again, as stated in the previous Newsletter, this is a calling for each individual to manifest their OWN ENERGIES to the healing of the waters in their OWN areas. Many people have been taught about rituals and ceremonies, which they are using in their traditional ways, but there are many who have not been introduced to these ways. The important message here to understand, is that we are asking YOU, as an individual, to get to know the needs of your own homelands. First, we are asking you to physically journey in your own lands (if possible), to identify locally what you see that needs to be healed or changed (i.e.; damage from toxins/mining, sewage contamination, low volume from minimal snow/rainfall, rebalancing, etc.). Then, once you have identified the problem, you establish an INTENT (healing the water.) The next aspect is addressing the FUTURE; look into the future to see how your intentions will affect all things - look at all aspects/ramifications.. The third component is the PHYSICAL MANIFESTATION of the intent which encompasses putting forth your physical effort by: bringing together like-minded people for this intent, using prayer/ ceremonies/ rituals, or simply lending your higher energies to making the water whole again. The final stage is the COMPLETION; once you have done your part, you turn it over to the higher realms (God, Holy Ones, Ancient Ones, Grandmothers, etc) and THEY will, if the intent is pure, bring the intention to fruition.

We would like to reiterate that as you work with your own homeland waterways, we ask that you send healing thoughts to the eight bodies of water involved in the Nine-Pointed Star Ceremony (see website: [CEREMONIES, Nine-Pointed Star](#)), along with ALL oceans, rivers, streams, creeks, etc. on our beautiful Mother Earth.

Please review our web site as we have updated our Circles and Locations Page as well as have added some very important messages from the Grandmothers..

www.waterblessings.org

Just a reminder that the Women's Water Blessing Ceremony at Medicine Creek on April 29th is going to be the first of many. At this time we still have some space left for campers. Hope to see you there...

Let me also remind you that we always enjoy your thoughts and welcome input for our various categories of information. Nothing on the web site is written in stone... and it is only a finger tap away. This is your Sisterhood, your web site and your ceremonies...Honey in the Heart.. Grandmother T. Whitedeer
