

Sisterhood of the Planetary Water Rites August 2010 Newsletter

Copywrite for Artist unknown

Greetings To all of our Water Sisters and Brothers:

August came in with a bang that is for sure. It seems that we have all been caught up in a whirlwind of activities, emotions and changes forced upon us where we have no control. Yet after conversing with a great many of this beautiful family I have discovered that each one facing these times of havoc and indecision have kept their belief in their Divine connections through prayers and ceremony. This is the true path of the "Light bearer," and we are only becoming stronger. Let us continue to support each other in our times of need no matter how small it seems.

The Grandmothers have been very kind to me and have acknowledged through messages that I am to deliver to those that would be the Keepers of the Water Ways Ceremony. This is truly an honor. As they came to me in the wee hours of May 17th, channeling and writing found me actually transcribing all of the information that was coming through. It has taken me all of this time to completely have this incredible ceremony documented because of the scribbles and scratches upon the papers.

On August the 24th of the full Moon this ceremony will be performed for the first time. All those who are able to attend will be as initiates of this ancient ceremony and through vows and integrity carry this beautiful Water Ways Ceremony forth to those that have also proven worthy of such information.

This is a water blessing ceremony and will not be placed in any way upon the internet. For those that request this ceremony and are willing to honor the protocols of this sacred information through vows, they will be sent the full instructions by the mail systems.

Message from AAMichael for August

We are aware that the future is uncertain and everyone is experiencing pain and discomfort in varying degrees. We ask you to focus on the miracles and progress you are making and not allow the fear of the masses to infect your mind as you move through and beyond all the massive changes that are taking place in your world. Know that, together, we will overcome all adversity. Our mission is to open the way for any dear Soul who expresses a desire to return to harmony and attunement with their God Self. Dear ones, when you feel alone or are in doubt or despair, come into your Pyramid of Light and we will give you courage, uplift and inspire you. When you feel lonely or unloved, move into your heart center and we will be there, waiting to fill you with the radiant love of our Mother/Father God. I AM your constant companion. I AM Archangel Michael.

Message from the Grandmothers

The Grandmothers have been very busy these past few months; they are working very close with the Clan Mothers and with the Great Council of Grandmothers that guard the Medicine Bowl. The Clan Mother for August is She Who Heals, her color is blue she is standing with The Grandmother She Bear who is keeper of the medicines of the Green Nation. We as women all carry a piece of her within us. She has many attributes that we are now seeking to be better people upon this Earth as we learn to live in harmony with our Earth Mother. The Grandmothers are asking us to learn of the medicines of the Green Nation within a 20 mile radius from our homes. Start with one that you see every day. Learn every bit of this plant, each part and how to prepare it, know the seasons and gifts that it offers us. Study this plant for at least six months keeping a journal of your studies. Draw or take a picture of your teaching plant. As you learn of your plants you will always have medicine around you. Eventually you will know how and when to harvest, how to save seeds and grow patches of your most used medicines close by you for your family. By the time you have learned at least six medicines from the Green Nation the Grandmothers will consider you a member of the Earth Blanket Tribe. AHO

Ancient Voices.....by Momfeather

Did you listen today? What did you hear? The ancient ones call and we feel them around us, but we do not listen. We no longer hear the voices in the wind as the leaves and branches tell us stories. The moon brings us messages and we do not see them. We are too busy with the world created by man. Take your children back to the times when the voices were heard and the signs were given. Go back before the importance of Creation leaves us forever. The voices of the ancestors may have been silenced by the death call but they are only a whisper away. Their music may have faded from our ears but must we let the delicate sounds of our past go with them? Our children need the teachings that are leaving us forever. Sing the words in a lullaby, whisper to them so they hear, lead them and they will follow. Never let our traditions die. Respected and revered the old ones still walk with us. They hold our hand to help us see. They still lead us and we must follow. We need not let the dreams they had for the future depart this life. This is why they honored us with their wisdom. When they leave us one by one, they take the book with them, leaving a patchwork of dreams on the web of life. What we do with the patches will help us to grow in wisdom. The Earth Mother is bountiful enough for all her children. Working together we can bring back the unique and powerful voice of our past. Grasp the insights and perceptions in the wind. The futures of our children depend on our actions today. Do not let the voices of the ancestors or the echoes of their songs fade away.

Sacred Space

by Maka Nupa L Cota

Within each one of us we hold our own sacred space. The way of the people tell us there are seven directions to pray. There are the four directions of the Medicine Wheel then there is the above or Father Sky and then Mother Earth. When we pray we send out these prayers to the directions all around us. The seventh direction is within our own Sacred Space the very center of our physical and spiritual being here on this Earth.

It is from this place we live and we pray and hold our own council for the peace to return.

From the time we are born we know our Sacred Space it is what we all carry within and can be the place that will teach us all to survive.

In order to enter this space we must remain still and silent and listen to our own heart and our own minds.

Once you have found the silent stillness then you can enter into this space.

The place of knowing of all things is here and it will tell you how to survive if you reach it. The Wisdom Keepers are here and the Vision Keepers live in this space. This is the vibration core of our being and is connected to the Sacred Tree Of Life where all things are kept safe and pure.

From this invisible connection we are fed the things we need to know for our survival. You are never alone you always surrounded by this spirit.

The trees and plants are part of this spirit. Mother Earth holds the same wisdom as does all living and being things that live on her.

From all these living things we draw on for our life and for our wisdom.

The wheels spin within the wheels holding all things sacred and safe within their hoops. Nothing is ever really lost just kept safe for a while until we enter the sacred hoop of life to seek the wisdom.

The other who came later to this land lost their way and also lost their connection to this sacred tree. In time they too will seek out the old ways and come to learn a better way to be keepers of the Earth Mother.

Blessings, Maka Nupa L Cota

In closing, please know that we ARE making a difference...On July 11th; the Star Nation People came through as we requested their help. They assisted with the capping of the broken pipe that created the disaster on the Gulf.... The Earth is feeling our compassion and love and the ancestors are acknowledging this through her to us by lifting our hearts so that we have moments as though we are soaring with the Eagles. These are blessings to us. As we are all connected so are the Star Nations People, and all of the ancient ones, the Wisdom Keepers that have dropped their robes are whispering in our ears...we must learn to STOP and be QUIET to LISTEN! It is healing medicine for us just to sit...in our sacred place...and do nothing but know that we are everything....AHO....Much Love,
Grandmother Whitdeer
