Message From the Grandmothers

Oh how we love you all! Please know that we are with you always! Ready to offer you whatever you need in your times of beckoning.

Our message comes from the conclusion of our last council gathering.....yes we need to take care of business too! It seems as though several of us have connected to serve with added information for the Medicine that needs to be dispersed out at this time.

These are the times when Grandmother Bear stands very close to her children. Giving strength and courage to venture out on their own. New leaders and Lightbears as you are finding yourself in an overload existence.

The members of all Sisterhoods and circles are truly stepping forward as leaders. A lot of you are establishing new relationships in many facets of your lives. Do not forget your relationship with our Holy Most Divine Mother/Father.

Our Mother needs our Love to be sent deep into her roots systems. Our loving relationship with her feeds and nourishes her. In return her love will help all of you to grow into your Divine gifts. She gives them to you freely but they are not so out in the open. Sometimes they are hidden within the layers of what is beyond our eyesight.

We Grandmothers stand guard for your future. We stand ready to serve. At this time great discipline in remembering is needed. You will remember who you are through knowing your ancestors as they have nurtured you throughout time.

Changing times are upon us. You need to be able to flow like the ebbing tides of your Mother!

AHO!

New Beginnings

New Beginnings – There is new beginning every day with the tip of the sun rising over the horizon. There is a new beginning with the changes that accompany each season. In reality every moment of every day is a new beginning. However, it feels in our fast paced world we miss most of these moments because we are too busy doing. This weekend is for you to experience new beginnings. The real purpose is to take the lessons learned from the weekend and have you apply them moment to moment in your own life. Take time to come sit, listen, and learn from respected elders from many cultures and traditions. Experience a community that focuses on the traditions of the past as a way to walk into the future and will help you create meaningful new beginnings.

SEPTEMBER EQUINOX 2010

The Path of "The Becoming" Begins!

By Children of the Sun Foundation

Stand up, shoulders back, brush yourself off and know yourself assured in the victory of light... it is time to celebrate! Our sleeping Splendor has awakened and we now advance into a brand new harmonic and focus of light activity.

This Equinox, September 22, inaugurates the Grand Opening of the PATH OF THE BECOMING! This is a new, awe inspiring journey of resurrection, the raising of the human self into our full glory as children of the Most High God. We, the Christed ones, shall soon walk upon this Earth in the full mantle of our illumined Presence and radiant expression of Divine-Human Perfection.

The clarion call has sounded throughout the multi-universe for a Great Gathering of the Flames in a grand convergence to the Earth this Equinox to unveil new dispensation in support of this transition. Through this full moon Cosmic Ray focus and time portal of incredible power and amplitude, we are directly experiencing initiation from the heart of Mother-Father God into The Great Becoming!

Autumnal Equinox with a Full Moon in Aries

The Autumnal Equinox this year is September 22 at 11:09 PM EDT. The Full Moon in Aries is peaking on September 23 at 2:18 AM PDT.

New Moons and Full Moons, solstices and equinoxes are already very powerful doorways for celestial energy in the unfolding of the year. This Full Moon coincides 6 hours apart with the Autumn Equinox for the Northern Hemisphere and puts the spotlight onto a cardinal grand cross with eight oppositions and fifteen squares. There is a lot of tension, friction and challenge for us to grow beyond our fixed ideas and limiting beliefs. Each one of us is called upon to take steps to grow and expand, transform and rise from the ashes like the phoenix in mythology.

How Will You Handle This?

As with all transiting celestial events it depends on how they fit into your personal horoscope and which of your structures are triggered to tell about the personal impact it will have for you. If this Full Moon or any planet involved in the Grand Cross is activating one or more of your personal planets in your chart, you will feel it. Your world might be shaking and it is scary. Astrology can help you tremendously to understand and take active steps to evolve and grow into the direction which is asked of you.

And remember your personal journey is part of the future of mankind. How you proceed in your life with your life themes will set the tone for people around you, will impact your family and your friends. Some of you will be role models for others because of the big challenge you might have survived in a good way.

Moon Node and Pluto in Capricorn

Pluto has turned direct again September 13 and is moving on in Capricorn. The Moon Node is in a wide conjunction with Pluto. Whenever Pluto is involved deep transformation is demanded in the sign and house it shows up for us.

Pluto in Capricorn is reflecting the depth of self honesty we have to face relating to all matters of the state, politics, economy and society at large. Pluto brings to light and collapses the hidden structures of domineering and abusive power. I believe that is a good thing! We do have a chance to move into the direction of the Moon Node with his lesson of responsibility and accountability. With the involvement of Capricorn or Saturn the benefit of those lessons require hard work and effort and don't come easily.

We have to apply ourselves to the best of our abilities and persevere in the application of our highest aspirations. You have a special gift to give and you are part of the monumental changes happening all around you. And of course in the end it is all about waking up to your true nature and embracing the divine in yourself. Many spiritual teachers of our times like Eckart Tolle, Byron Katie, Almaas, Neil Donald Walsch, or the Dalai Lama are helping with their specific wisdom and point of view.

But the goal is to be so tuned in to your own inner divine guidance that you will be able to live a full life from that inner place and become your own teacher. I truly believe that this is what this whole transformation and the 2012 land mark is about. Each one of us needs to raise our personal consciousness.

The transition into the Golden Aquarian Age is a process of conscious individuation to a higher state of consciousness contributing and creating a new way of life.

I hope you will spend a splendid Equinox in the company of your friends and like minded souls. Use the power of this time quality to set your intentions for your personal life as well as your prayers for Mother Earth and an easy transition into the new level of consciousness rising.

Aloha and many blessings for your journey, Shakti.
