February 2011 Newsletter

Panther Meadows, Mt. Shasta..... Grandmother Flora Jones place of Prayer and Healing

Water connects us all and it is time for us to connect with water in a new paradigm through its own language.

Messages From The Grandmothers:

Our New Beginning Celebration will soon be here and lets all remember the importance of our precious Earth.

Momfeather...

For a moment in time, on the coming Spring Equinox let us and everyone we know take off our shoes for fifteen or twenty minutes to stand in the earth directly with the soles of our feet bare to the soil of Mother Earth. To laugh at our self for going through the child-like motion of

removing our shoes and socks, wiggling our toes while standing on the breast of Mother Earth. To take a deep breath, relax our heart, then feel of one another through the soul of Mother Earth. To feel as one, caring and loving for our relatives, our neighbors as our self. To yearn for the birdsong and babies laughing. If you cannot be with us, you can pray with us and play on the Earth.

Thinking

What do we know of the world beyond?
Mysterious to some, comforting to others.
Others love the creative adventure of thought
and some study it. Me, I like to walk the
steps catching glimpses of that which was
and that which is to be. Heaven and earth
convulsing in the same breath. Through the
branches of the leafless tree or the open
pages of an empty book. My mind can
take me to the world beyond.

Momfeather

To All,

From The Ancient Ones:

Dearest Light-bearers and Keepers:

We are awakening now into a new realm of being. Some of you are confused; some are feeling changes within your bodies and Spirits. As we are becoming more connected to our Mother Earth and of the Mother Divine, we are feeling those strong and beautiful energies of these sources.

Our daily rituals now will help us become more steadfast and balanced as we move through our daily lives.

Learning and educating ourselves of this magical knowledge very quickly helps us to dis-solve those old habits that now only hinder our Spirits growth and movement into the 5th dimension.

So many Elders are speaking of these things. Listen closely! Each in their own words however; the messages are all inter-woven.

By forming a strong circle of like-minds and hearts you can then develop in the ways most needed for your own shifts of time! You will be amazed at how many are going through the same changes... "Growing Pains!"

Your circles support you when changes seem unbearable, give comfort when challenges become a seemingly terrible burden. "We are the Ones We have been waiting for!" AHO

MESSAGE NINE from 1/11/11 11:11 a.m. ceremony, by Sungdeska Sapa Itancan : **From**

"Relatives,

The inner realms of time have revealed the memories of Meldek, Mars, Lemuria, Mu and Atlantis. The Secret of the Secret has been successful. Implosion of thought has begun.

The poor have outnumbered the rich. Therefore, the energy of those that have been in chains, through the manipulation of thought, are free to dream again. The mind of those that have been manipulating others into thinking thoughts, that are not of the light, will be dancing to a new song. The revolution to bring forth the Light of Light has begun. The new government of light is sending forth the command to all those that have been waiting, IT IS NOW TIME TO AWAKE, the awakening of Aquarius..

1-11-11 is the beginning of the fall of all false prophets. All false governments will slowly decline and will no longer be in service unto themselves. Structures that do not serve the light will implode and the government of Light will slowly emerge when the Fire of Truth is revealed. This is the cycle that humanity has created for themselves. It is the rhythm of life.

To know Light, one must travel through darkness. To learn the truth, one must experience the murder of the word. There is always a beginning and an end. A new creation of the end of the grand illusion and the Awakening of a New World within and without has begun.

The fire will burn from within and the smoke will make its presence known.

The beginning of the end of darkness has begun. Those that are within the structure that think they will control humanity will become victims of their own fear. The structure creates fear for those that are within their creation. They will look at each other with distrust and they will turn in on each other. They will create a spy vs. spy within their ranks. The system will collapse as all systems do. They will chase each other as animals chasing their own tails.

There will be many tails to chase and each tail will have a tale. The leadership within will become a leadership without. Allow evil to destroy evil.

The poisoning of the Earth, Air, Fire and Water will stop within time.

Aquarius is about water, therefore all aspects of water will arise. From the poisoning and cleansing, all knowledge will be released and karma will become a friend or a foe.

Keep our water Healthy and Clean!

Water is you and you are water."

Dear People

Good news! "Convening of a Fifth World Conference on Women" has reached the UN Commission on the Status of Women. The forty-five member-countries on the CSW are asked to support the statement and advance it to the Economic and Social Council (ECOSOC) and the General Assembly. It is available in the six languages of the UN: Arabic, Chinese, English, French, Russian & Spanish. This is the UN edited version of the Written Statement that I submitted on behalf of Pathways to Peace, Women's Intercultural Network and Women's World Summit Foundation. The CSW meets February 22 -- March 4, 2011.

Do what you can to help support the premise and vision for this conference. With Michelle Bachelet, former President of Chile heading UN Women, the new superagency for women, the confluence and synergy of her leadership, UN Women and 5WCW holds great promise. ***Not as an end in itself, but as a huge step toward a global women's peace, justice and empowerment movement.***

MANIFESTING IN THE FIFTH DIMENSION -- Written by: Wagniza Waste Win

www.intothelightinlove.com

There has been so much talk about watching our thoughts carefully and knowing that exactly what we think WILL BE. There's the talk of not looking back at the moment of transition. Here's my personal feeling about that: the reason it will be SO VITAL at the time of transition is because, if we are moving into the light it will mean that we are already virtually in the 5th dimension in order to be having that experience. Because that new existence (the 5th dimension) is about instant manifestation, that's why any thought we have will materialize immediately. So, if we start to worry - THAT worry or fear will instantly become our reality. This is so powerful, especially at this time, that it would have the force to pull us right back into the fourth dimension if we are not practiced at thinking ONLY the positive thing that we want to manifest in 100% clarity, no hesitation or looking back at all.

Like most new spiritual concepts, it takes time to practice and learn through all parts of our being to create a new habit/pattern to completion. That time-frame is frequently considered to be two years by healers, psychics and other spiritual practitioners. It is interesting that the messages from the Elders which are coming more fervently since the 21st of December, 2010, this date is exactly two years from the date of transition, December 21, 2012. (Also, as I said before, we've been taught that it takes two years of daily work to create the merkaba energy field that would so enhance our spiritual connections.)

If we review, the recent messages are saying forget the past, the old stuff, but now concentrate fervently on these things: CONTROL YOUR THOUGHTS because they will turn into your reality (see the message from the Pleiadian Grandmothers). Stay in LOVE and COMPASSION. If the concept of instant manifestation with relation to the fifth dimension is new, there is a very vivid portrayal of this idea in the movie, "What Dreams May Come," with Robin Williams. You may want to watch it again. You can also do internet searches, of course, on the fifth dimension and on manifestation.

Manifestation is a lot of what the "Secret" was about, however, the "Secret" teaching was missing a few vital things. It's critical that anything you choose to manifest come from the heart - not the mind only. This is essential because the heart will not allow you to spend your invaluable thoughts and creation process on creating something that is not the highest

good for you, so that's a nice safeguard. Also, for the ultimate manifestation channel in the spiritual body, the pathway STARTS in the heart, moves up with the tip-of-the-tongue on the roof of the mouth, through the hypothalamus gland, up through the pineal and pituitary then out of the third eye and through the chakra that extends from the third eye outward. This is a very important process to put into place now, so that by practicing it for the next two years, it will be put in place at the time that we may want it the most.

Water Blessing

The following Water Blessing Ceremony is an integral part of the UN Women's Circle workshop. We invite you to join us any time convenient to you or at the same time as the workshop using your own cultural, religious, spiritual blessings/prayers, songs and dance that honor you and your sacred circle and the preciousness of water in bringing us together as One. Bringing water from our home area, each woman and girl pours their water into a communal vessel, stating their name, where they live, their organization if applicable and a hope for their UN Women's Circle gathering and UNCSW.

Bless this Water, Bless each one of us as co-creators of a new Earth, One Circle, One Connection, One step at a time. Bless this water, Bless all the water of Earth, transforming pollution into clean and safe water for all. Bless this Circle and all UN Women's Circles who together will bring justice and peace for all Creation.

May we give them deep and rich support!
